

Motion Designer (Denmark)

Hi there and thanks for coming by

We are looking for a Motion Designer with high aesthetic standards to take our branding and marketing to new heights.

What You'll Do:

- Motion graphics and video ads for marketing campaigns
- Packshots and 3D renders (stills & video) of our products.
- Automate/templify our marketing assets
- Work with AI tools to augment your designs
- Run occasional live shows - film, produce and develop related visual assets
- Art direction

What We Expect:

- High aesthetic standards and attention to detail is an absolute requirement
- Strong skills with industry-standard software (e.g., After Effects, Cinema 4D, Redshift etc.)
- A general interest in design, arts and everything digital
- A self-driven and self-motivated person
- A structured and a digital native
- Have a natural interest in staying updated on the latest tools, technology and trends
- A background from a higher design school (DMJX, Hyper Island, DKDS, etc.)
- A portfolio to show your work

Bonus points if you have:

- Experience with film and photography
- A commercial understanding
- General graphic design skills

Impact You'll Do:

- Elevate our marketing with visually striking and effective video content
- Help us stand out from competitors with professional, high-quality visuals
- Contribute to building a comprehensive catalog of product imagery for diverse marketing channels

Salary & Benefits:

- Competitive salary
- Work straight out of Rådhuspladsen, Copenhagen or Cortex Park, Odense.
- Working from home days and flexible hours.
- The tools you need to be a great motion designer (we also own a Sony A7IV, DJI Air 3, gimbal, lights, and more...)
- Great catering with vegetarian options
- A real espresso machine with beans from Impact Roasters
- Opportunities for growth and development within the company

About JABS Group – your future workplace?

We are the largest manufacturer of windows and doors in Europe, selling directly to consumers online. Our 700 employees are spread across offices in Denmark and Sweden, as well as our factories in Estonia, Poland, and Romania.

As one of the pioneers in the European e-commerce market for windows and doors, we now operate in 10 countries, offering 15 different brands and webshops.
